

ARGHYA BHATTACHARJEE

Web Developer | AIML Enthusiast

ABOUT ME

Versatile software developer proficient in Java and Python, with strong frontend skills and MySQL database management expertise. Passionate about AI and Machine Learning, committed to innovation and problem-solving. Currently expanding skills in Node.js backend development. Holds a patent for "AI-based LPG Gas Leakage Detection & Fire Alert System." Eager to collaborate on impactful projects and connect with professionals.

ACHIEVEMENTS

Patent Holder: Inventor of the groundbreaking "**AI-Based LPG Gas Leakage Detection and Fire Alert System**" recognized for pioneering advancements in safety technology. Designed to detect and alert users of potential gas leaks and fire hazards using artificial intelligence, this innovation underscores a commitment to enhancing safety standards and protecting lives.
